

**Mega Mangosteen contains added fruit juice extracts and concentrates that possess important nutrients for better health.**

Mangosteen Whole Fruit Extract—xanthones, catechins, polyphenols, polysaccharides, potassium, phosphorus, calcium, iron, and vitamins B1, B2, B6 and C.

Goji Berry Extract—rich in antioxidants, amino acids, polysaccharides, carotenoids, vitamins B1, B2, B6, C and E.

Pomegranate Concentrate—naturally rich in antioxidants, including polyphenols, tannins, punicalagin, anthocyanins and ellagic acid, which are members of the polyphenol family; they possess unmatched antioxidant fighting characteristics to promote healthy cardiovascular function and to reduce oxidative stress on the cells.†

Blueberry Concentrate—rich in antioxidants with a high ORAC\* value to help resist oxidative stress; good source of vitamin C, fiber; high in flavonoids called anthocyanosides. Anthocyanosides help in maintaining the integrity of blood vessels, as well as helping to stabilize collagen. They are also potent antioxidants.†

Cranberry Concentrate—vitamin C, Vitamin A, potassium, fiber and rich in flavonoids to promote healthy cardiovascular function as well as healthy urinary tract function.†

Lychee Concentrate—vitamin C, phosphorus and copper.

Grape Seed Extract—contains a concentrated source of oligomeric proanthocyanidins (OPCs) a potent antioxidant 20 times more potent than vitamin C and 50 times more concentrated than vitamin E†; also rich in polyphenols.

Grape Skin Extract—a great source of oligomeric proanthocyanidins (OPCs) (see Grape Seed Extract), vitamin C and bioflavonoids.

Red Grape Concentrate—vitamin C, manganese, fiber and potassium. Contains a bioflavonoid known as quercetin which works as an antioxidant to stimulate the immune system.†

Mixed Fruit Concentrate—Pear: vitamin C, copper, potassium; Peach: vitamin C, antioxidants, carotenoids and bioflavonoids; White Grape.

\* The ORAC (Oxygen Radical Absorbance Capacity) assay is a laboratory measure of in vitro antioxidant capacity.

**No GMO**

**No Added  
Preservatives**

A DIETARY SUPPLEMENT DERIVED FROM THE WORLD-RENOWNED MANGOSTEEN FRUIT, BLENDED TOGETHER WITH POMEGRANATE, GOJI BERRIES, FRUIT CONCENTRATES, AND CONCENTRACE® FOR A POTENT ANTIOXIDANT FORMULA TO PROMOTE SUPERIOR HEALTH AND WELLNESS.†

## THE MANGOSTEEN

The Mangosteen is a tropical fruit that grows on trees and is cultivated in both the northern and southern hemispheres. It is composed of pericarp (rind), pulp (fruit), and seeds. The pulp is composed of four to eight white segments of juicy, soft flesh that is of the consistency of a ripe plum. The pericarp consists of a dark purple, smooth rind about 6-10 mm thick which encloses the pulp.

## XANTHONES

The secret to the mangosteen's health promoting abilities is the xanthones contained in the fruit. Xanthones are biologically active plant phenols that are structurally similar to flavonoids that have been found to possess multiple health benefits.† When it comes to xanthones, there is no other fruit that possesses a more potent concentration of xanthones than the mangosteen.

One of the key benefits of xanthones is their antioxidant properties.† Xanthones possess an extra electron, and help to seek out and quench free radicals in the body. Free radicals are atoms that have an odd number of electrons. Free radicals wreak havoc on the body's cells as they wander through the body searching for another electron.

## HIGHEST ORAC\* VALUE—30,000!

The reason Mega Mangosteen is different from other mangosteen products is because of its unmatched ORAC (Oxygen Radical Absorbance Capacity) score. The ORAC test is a laboratory test tube analysis that measures the total in vitro antioxidant power of foods. The higher the ORAC score, the greater the potential benefits because of the antioxidants that help defend against free radical damage to the cells.

Recent research highlights the benefits of eating plenty of high-ORAC foods, citing that they may help support healthy aging in both body and brain.† By using a proprietary extraction process, Mega Mangosteen contains the highest concentration of free radical-fighting xanthones†, which give it the highest potency of antioxidants when compared to similar mangosteen products.

## CONCENTRACE®

The difference between Mega Mangosteen and other mangosteen products found on the market is that Mega Mangosteen contains a potent, full spectrum complex of over 70 ionic trace minerals and elements from ConcenTrace®. This complex of bioavailable minerals supercharges our formula to help in the absorption and assimilation of all nutrients so you can attain the greatest health benefit possible.†

**Allergen Info:** contains no known allergens.

## MEGA MANGOSTEEN

Mega Mangosteen is a dietary supplement that offers several classes of powerful phytonutrient antioxidants that have been derived from the whole fruit of the mangosteen (*Garcinia mangostana L*), an exotic fruit that comes from Southeast Asia. The mangosteen has been nicknamed the "Queen of Fruits" and in some parts of the world the "Food of the Gods" for its various health benefits and for its delightful taste. For thousands of years, Asian countries have been using the mangosteen in Chinese, Ayurvedic and folk medicine to support optimal health.†

Mega Mangosteen also contains Goji Berry Extract and Pomegranate Concentrate as well as several other fruit concentrates and extracts that possess important antioxidant properties for better health.† We also added 100% Daily Value of natural Vitamin E for its antioxidant properties.†
